

Quartzelec in action:

Marine

Quartzelec is an independent electrical engineering service provider with extensive competencies in 3 core areas:

- High Voltage Services
- Rotating Electrical Machines
- Electrical Services.

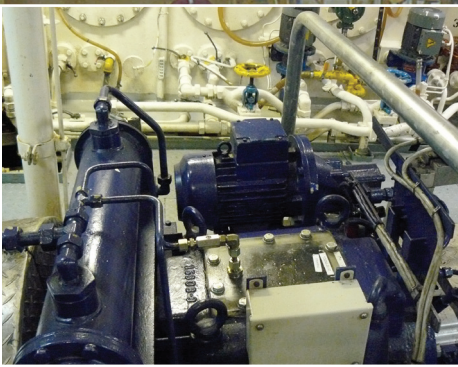

With over 80 years experience and technical expertise in the field of electrical contracting and the repair and maintenance of motors and generators, delivering design, manufacturing, installation, maintenance and service solutions for the UK's marine industry from our strategic locations in Aberdeen, Grimsby, Swansea and Portsmouth.

We provide clients with an extensive range of Marine Services:

- Electrical and mechanical services
- Site services
- Fabrication solutions
- Pipework
- Pumps
- Gearboxes
- Valves

Today, Quartzelec is well known as a technical authority in the field of LV and HV, AC and DC electrical motors and generators. Supporting the owner/operator with new equipment as well as the maintenance, service, and supply of spares for a range of pumps and motors, either from our regional offices and workshops, or on site by utilisation of our highly experienced site teams.

We are also leading electrical contractors in both LV and HV (from 33kV to domestic systems), with an exceptional level of local support and the necessary accreditations/certifications in place to support industrial, utility, infrastructure and commercial clients alike.

Site Services

- Electrical and mechanical maintenance
- Site safety
- Non-destructive testing
- Condition based maintenance
- Slinging and rigging
- Vibration analysis
- Laser alignment
- Thermography

Pipework

- New installation
- Retrofit
- Repair and maintenance
- TK Couplings
- Welding and fabrication

Fabrication Solutions

- Welding
- Fabrication
- Design
- Stainless steel

Pumps

- New supply
- Electrical overhaul / rewind
- Mechanical overhaul inc seals
- Inspection and test
- Removal and installation

Gearboxes / Couplings

- New supply
- Overhaul
- Inspection and test
- Voith Specialists

Valves

- New supply
- Inspection and maintenance
- Overhaul
- Actuators
- Pressure testing

Whatever the type of installation, UK location or criticality, we work with the same project management methodologies and care to ensure complete satisfaction and you can depend upon on Quartzelec experience and skills to underpin the integrity of your key installations thanks to our customer driven ethos of quality and service.
