

Installation & Inspection ATEX & IECEx

Quartzelec offers a wide range of electrical inspection, installation, repair, maintenance and overhaul services specifically to support static electrical equipment, rotating electrical machines and driven equipment operating within hazardous area environments.

Our COMPEX certified engineers are trained to the highest standards with extensive experience of working within hazardous area environments including onshore and offshore within the Oil, Gas & Petrochemical sectors.

We offer a full inspection of existing plant and provide any remedial works required.

Working within the field of Ex hazardous areas, we are accredited to perform:

- Inspections carried out to BS EN 60079-17
- Installations carried out to BS EN 60079-14

#UnparalleledinEngineeringServices
