## MEET THE TEAM

**Dominic Buse**

Director International  
Operations

**Steve Cooper**

Director,  
Power Generation

**Luke Clarke**

Operations Manager

**David Jones**

Business Development  
Manager

## DID YOU KNOW

Full design  
engineering capability  
in-house for  
all OEM electrical  
machines

A unique heritage  
spanning over 100  
years with our legacy  
company names  
including; BTH, AEI,  
GEC, GEC Alsthom,  
ALSTOM

## OUR CAPABILITES

Maximum lifting capacity of 85 tonnes

Burnout / curing oven

Dedicated clean area for rotor rewinding

HV test and robotic inspection equipment

Cryogenic cleaning and sponge blasting capability

HV Test facility to 13.8 kV

ISO9001, ISO 14001, ISO 45001 and ATEX accreditation

Fully air-conditioned workshop

Machine refurbishment, repair and rewinds

AC Generators inc. turbo alternators up to 500MW
